

Twin Bar Lite

Cat. No. TBL
Cat. No. TBLGU

The Twin Bar Lite is ideal for wall or sign illumination using two 20 watt lamps with an IG40 transformer. The luminaire has two individual spot lites which can be aimed in two entirely different directions. Each lite has a fully adjustable arm allowing 360 degree rotation and 0-90 degree elevation adjustment. The heads are not mounted on a 250mm (10") bar with twin ground spikes.

This luminaire is machined from a choice of solid aluminium with a UV stable powder coat finish, solid copper or 316 stainless steel with a clear, tempered, flush fit, glass lens and high temperature silicone gaskets.

A GU10 version of this luminaire is also available for line voltage lamps. However, longer luminaire bodies are needed to accommodate the longer lamps.
